Power Of the Reds

Red Angus Sale

March 31, 2018
1:00 pm

Sponsored by
Red Angus

Lowderman Sale Facility
Macomb, Illinois
Welcome to the
23rd Annual Power of the Reds sale!

This is the longest running consecutive Red Angus Sale east of the Mississippi. This will be one of the best and largest offering of Red Angus females, bulls, and frozen genetics ever assembled in this event and one of the last opportunities to buy quality and quantity Red Angus genetics this sale season.

This event will also include the complete and total dispersal of the Deer Hill Farm program of Dick and Carol Kealey. Dick and Carol have been outstanding supporters of this sale throughout their entire purebred career and the longest consecutive consignors to this sale. Thank you Dick and Carol for your support throughout the years and for bringing excellent cattle to this sale. It will be sad to lose you!

The Red Angus female is the quintessential female in the beef business. This is proven by actual hard fact data through several years of study by the Superior Livestock Marketing Company. Red Angus females sale above all other breeds and composites of breeds by an average of $4 to over $8 a hundred weight. This is based on sales of several thousand females on Superior Livestock. Cattlemen all over the world have found a true appreciation for the Red Angus female and are willing to spend the extra money to obtain them.

We truly believe this may be the best offering of Red Angus genetics ever offered through the Power of the Reds sale. Within the pages of this catalog, you will find a wide variety of genetics that will work in nearly any program out there. I encourage you to study the lots and identify the genetics that will work best in your herd. If you have specific questions, please feel free to call consignors directly or myself. We will be more than happy to help you in any way we can.

If you are unable to attend the sale in person, call any of the sale day numbers, sales staff, or myself and leave an absentee bid. All absentee bids will be held in the strictest of confidence as you have come to expect and trust from us. The sale will also be broadcast live on DVAuction for your convenience if you are unable to attend.

Kaye and I look forward to seeing you in Macomb Illinois for the 23rd Annual Power of the Red Sale!

Sincerely,
Stuart & Kaye Gilbert

The Illinois Junior Red Angus Association will be sponsoring a Silent Auction Prior to the Sale. Your continued support is greatly appreciated!!

This cow is one of my favorites. Her dam was a heavy muscled cow with a lot of bone and frame from the Ed Olson operation in North Dakota. The combination of this cow’s dam and NBAR Hamley produced this cow which also has frame, muscling, and bone. Her heifer calf in this sale is the image of her mother. Princess Rose is safe in calf to Double B Bullseye (bred 11-25-17).

Halley is a heifer we bought due to her looks and balances of numbers. She has done a good job for us and should cross well with the Ridgerunner bull. Almost 6 years old with Julian B571, Gold Robber 1909E and Monument 4X in the pedigree. Predictable calves here!

In the prime of her life, this five year old Brylor bred female currently has two daughters left in our herd. By Black Kodiak, this dark red female has the looks and the genes to provide some outcross genetics in your herd. Bred to Ridgerunner for a spring calf, it has all the potential to be your next show heifer or herd bull!!

Al Bred to Crimson Jewels (2228996).  
Due 9/14/2018

Grand daughter of the Split Rock 35X cow that sold twice at $25000, this young cow has a good future.  She is traces to Mulberry 9X who is an udder improver and produces sharp females.  Split Rock 517 is choke fronted, deep ribbed, long bodied and correct on her feet and legs.  She has really nice udder quality as well.  Her EPDs are indicative of the growth the Split Rocks are capable of.

616 is a bred heifer who combines the powerful performance genetics of Canadian bred Cash 2R with the maternal power of the Split Rock cow family from VanWye's and Mimi W085 from the DAMAR program prior to their record setting dispersal.  She sells bred to WOF Cody Z91 for a 5/2/2018 calf.

Al Bred to TC KWF TKA Red Rocket (1435753) on 7/19/2017.  PE to Bieber Hard Drive D167 (3536464).  
Confirmed bred.  Confident is a Red Rocket Calf.

An ET daughter of Brylor Red Kodiak and the Mulberry 9X daughter Split Rock 317.  Split Rock 632 is quite nice in her own right being dark red, easy fleshing, deep ribbed, flat shouldered and wide based.  The Split Rocks mature into broody females that wean off heavy good looking progeny.  Greysen showed this heifer so she is halter broke.  The calf she’s carrying should be show quality.
Al bred to LSF VRA No Worries 4657B (1689588) on 1/18/2018 with Sexed Semen

Penny Rose is out of Princess Rose, a cow that sells in this auction. This heifer is rugged and correct with a lot of bone. In short, she is the image of her mother. She was bred on 1-18-18 to No Worries, an easy calving performance bull (sexed semen).

Pregnancy status will be available on sale day.

OFF THE TOP SHELF! Pineta is an easy fleshing powerhouse. Dam and maternal sister were both high sellers at Andras. Big time genetics here. An Andras Thunder A092 x Morgan's Direction 111 cow. We're not holding anything back for this sale, otherwise she stays home!

---

We really don’t want to let this one go. Copper 628 is sired by our favorite bull Bieber Hard Drive and a great producing Dakota Copper cow. Maternal brothers to 628 have sold for $9000 to $12000. She herself is dark red, solidly built with extra bone and rib expansion. In addition, she is long necked and strong topped. Her weaning weight and yearling weight EPDs are in the top 5% and 7% respectively. You really should be able to raise progeny that would be very marketable.

---

Mulberry continues to excel as a producer of outstanding females. This Mulberry sired female is no exception… and the Mulberry/Sakic combination is hard to beat. This cow continues to show excellent conformation with her length, rib, and correctness. This cow produced the high selling bull in the 2017 Power of the Reds sale. This year she has a tremendous Double B Bullseye heifer at side born 1-3-18. Sells open.
402 is another 4 year old cow just getting ready to hit the prime of her production career. She is sired by the Cash 2R bull who has been heavily used in Canada and is known for adding performance to his progeny. Her dam is the incredible Mimi W085 from the DAMAR herd who wrote many pages of history in the Red Angus history books and continues to to this day. Sells with a bull calf at side sired by New Direction born 2/10/2018. BW 84 lbs.

Mulberry continues to be the hottest female sire in the Red Angus breed and this cow is typical of the almost flawless conformation of Mulberry sired females. This cow has frame, length, style, and straight lines. She has a 1-2-18 bull calf at side by Brown Redemption. Sells open.

No Power of the Reds sale is complete without a black/red carrier consignment. Blackcap Princess 534 is just a Crimson Jewels sired first calf heifer. Combine the Canadian Red genetics with the black genetics of TC Total and you have something uniquely different. 534’s EPDS read very maternally with a CED of 11 and BW EPD of -2.2 and a 20 on milk. This makes it easy to produce marketable bulls out of her. Phenotypically she is feminine, long bodied, deep and correct. She has really nice udder quality as well. Probably most impressively she has a RED heifer calf at side by Bieber Spartacus!

This fancy made show heifer prospect has a nice square hip with an extra shot of eye appeal! She is super smooth and really feminine. She will have no problem going to work for you with her great calving ease.
Ginnie 711 is a deep red, moderate framed, sweet fronted heifer that stands squarely and is straight topped. She is sired by the $30,000 Rich Red Angus herdsire Freedom who is a 5L Independence son. Independence sure seems to be gathering fans. Ginnie traces back to the famous Messmer Ginnie cow and to the Canadian calving ease Pasquale bull. This heifer has a great disposition.

Stout made PIE Cinch out of a high selling open heifer at Andras’ Sultana is a correctly made, easy going heifer that will make any junior a project and go on to be an even better cow.

Style to burn! Marta is a New Direction x Fat Tony who is extended and clean fronted, big topped and yet very feminine. Mark this one down, Juniors, she’ll show and make a whopper of a cow. Dam’s MPPA 102.67
Here is an opportunity to get a very good heifer out of one of our top cows. She should make you a good brood cow with fast growing calves, just like her mother does!

Here is a very deep bodied, easy keeping female who has really came on since weaning. She is soggy-made with a lot of growth left in her, and she has really caught our eye around here. This heifer will help any herd moving forward and will help add milk and growth to her offspring. She could possibly be a great show heifer to help a junior showmen start their herd.

If you are looking for something a litter different; then look no further. Here is a flawless category 2 Musgrave Aviator Son. He is a thick made, big top, very sound footed bull. This red gene carrier has something a litter different. All you have to do is take a look at his EPD’s and you will see that he has; calving ease, growth & carcass traits all wrapped up in an easy on the eyes package. We think so much of this bull we are using him right now in our herd! We would like to keep an in herd semen option.

---

**Sire to Lot 65**
Musgrave Aviator

---
TRUE GRITT TOP GUN 037 is an impressive herd sire prospect that is the product of some of the hottest, most productive genetics in the Red Angus breed. Being out of a flush with a mating consisting of the now deceased SLGN Young Gun 109Y bull and BRC DINA 3129, we truly think this is a one of a kind opportunity. Here’s a bull who’s built right from the ground up, being a sound and big footed individual who’s bone and width only compliment his moderate, well balanced, and good looking kind. And to put it lainman’s terms, it’s these positives combined with his deep genetic heritage that should give him the potential to be able to successfully cover both purebred and commercial cows.

Detour 7016 is stout made, moderate framed, soft made, big hipped bull that is choked necked and heavy boned. If you need a bull to use on heifers check out his CED of 8 and 70lb birth weight. He gets his great rib shape from his Hard Drive dam who had a great show career for Genna. She won the Land of Lincoln class at the NAJRAE, Reserve Champion as a calf at the Illinois State Fair and reserve in her division at the NAJRAE. This calf has been a stand out since birth.

TMA MISS COOPER X022 A364

This is Mr Impressive. He was a bull calf out of the first cow of my herd I started just last year. His dam is Ms Impressive and his sire is Right on Antioch. We had a fun show season with him winning Champion Bull Calf! Mr Impressive has a wide top line and good depth of rib with lots of base width and is a muscular powerhouse with a yearling weight over 1000 pounds! He has really grown!! His temperament makes him easy to handle.
This son of Red Wildman Curve 207Z also brings in the power, performance and phenotype of the Rock Star bull that was so successful for the Solution Genetics program in Iowa. He is also backed up by the DAMAR Esther cow family, going back to the Messmer Cow family as well as carcass King Messmer Packer.

This Canadian bred bull is the grandson of the RED Fine Line Lassie 71L cow purchased by the Karweiks from Michigan in the Fine Line dispersal and the great Mulberry 26P. A full sister to his dam brought $19000 in the Mile High sale at Denver. He is a nice individual in his own right. He is dark red, deep bodied, smooth fronted and really correct. He also carries adequate muscle and some style. Kodiak 7022 certainly fits the bill of a calving ease bull with a 60lb birth weight and a CED of 5 and BW EPD of -2.5 and has a very respectable weaning of 634lbs. Semen tested.
Perfect Storm was tragically lost in 2013, way too early in his career. He certainly set the Red Angus world on fire when two daughters sold for $27,000 and $10,000 respectively in the 2012 Tree Lane production sale. Another daughter was a feature lot in the 2013 sale selling for $6,500. The Perfect Storm progeny is still making its mark with heifers selling in the 2017 Tree Lane fall sale at $8,500. With a limited amount of semen left in storage, Perfect Storm semen is still in high demand.

Perfect Storm daughter sold for $8,500
King of Spades daughter sold for $7,000
King of Spades daughter sold for $6,500

King of Spades is possibly the heir apparent for his sire Card Shark. In his first calf crop, 3 daughters sold in the Tree Lane farms sale at $10,000, $7,000 and $6,500 respectively. Maternally he is backed up by the PIE Get Western female who also goes back to the Geis Prime Rib bull through the PIE Prime Time sire not to mention that he is also the maternal brother to Tree Lane Perfect Storm!

This Two-Time National Champion Female caught the attention of everyone in the show arena but was also able to go home and get the job done! She produced the well known $65,000 Yardmaster bull along with numerous other high sellers. This moderate made female is extremely feminine through her front third and offers the depth and dimension that a donor cow should have. This mating with Nexus covers all of the bases outstanding phenotype, proven pedigrees, and solid epds which every animal needs to work in the real world.

This is an exciting mating that combines the Firestorm 1800 bull who is a Sakic X GT Cita son with the great donor female that was purchased from the Harmony Hills program and is a daughter of Norseman King and the great BJR Windsong cow that was so successful for Harmony Hills and then went on to be a cornerstone donor cow for the majestic Meadows program. The females out of this mating are beautiful and would be a great addition to any cattlemen’s herd.

Guarantee 6 Embryos
Splitting Every Other Embryo After 6
Buyer’s Choice of Conventional or IVF Flush
Flush must be completed by end of 2018.

If you don’t have an already existing ET program, you may want to start one right here. The opportunity to flush one of TLC’s females to a bull of your choice is indeed a rare opportunity that should not be taken lightly. The resulting progeny that would be produced from this flush opportunity could very well reach beyond even your wildest imagination. Very likely the most challenging part of this genetic opportunity will be deciding which one of these great females to pick!

5 Open Heifers

These 5 ladies are all February-March born commercial Red Angus heifers. They have originated in the Star G herd in Iowa and Dams were all yellow tag females. A nice group of maternal future mamas with nice dispositions.
Thank You for attending & helping us to bring you the

Power of the Reds

TERMS: Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of
the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle. Buyer hereby grants to
Seller/Sale Manager a security interest in the livestock purchased to secure the payment of the purchase price, and Buyer further authorizes Seller/Sale Manager to
file any necessary documents with any Secretary of State or other governmental entity necessary to perfect such security interest.
ANNOUNCEMENTS: Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take preced-
ence over the information contained herein.
BIDDING: Any disputes or challenges regarding bids or tie bids will be settled by the Auctioneer and the decision will be final.
PURCHASER’S RISK: All animals are the owner’s risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.
CERTIFICATE OF REGISTRY: A certificate of registry for each animal will be transferred to the buyer at the seller’s expense.
FROZEN LOTS: Buyer is to pay for all shipping and handling of embryos and/or semen. Embryos and/or semen will be shipped COD or a separate account estab-
lished at the storage facility within 30 days of sufficient payment unless other arrangements are made with Sale Manager and/or Seller.
HEALTH: All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Ar-
rangements for International Shipment should be made with the Sale Manager prior to the auction. All efforts for the exportation of cattle can be arranged through the
Sale Manager.
BREEDING GUARANTEE: All animals are guaranteed by the seller as outlined in the Suggested Sale Terms of the Red Angus Association of America including
but not limited to points 8 and 10.
LIABILITIES: All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may
occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness,
improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller.
They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation,
express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that
may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the Sale Manager from pedigrees and information
supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this
catalog. Any exceptions taken are between the buyer and the seller.
CONTRACT: The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both.
Each sale or resale of an animal constitutes a separate transaction.
LIVESTOCK INSURANCE: Please tell the sales clerk when you check out if you would like to insure your purchases, and they will record the necessary information.
All purchases are the buyer’s responsibility as soon as they are sold.
